

Church Construction

Our church started the process of rebuilding in the spring of 2012. While the second floor hasn't been finished yet, here is a series of pictures from the start to the building status after mission teams finished their work summer of 2014.

Within a couple of days the old building came down.

The new walls were going up, spring 2012.

Morning Prayer in summer 2012 kicking off the team work.

Poles in place for pouring the roof of the first floor.

Spring of 2013 brings the walls for second floor.

A preview of the cross that will be behind the altar once finished.

Rebar in place in summer 2013, ready for the roof to be poured.

The roof is being poured, summer 2013.

Preparing the building for use:

- “windows” – check
- Cement and sand for floor - check

First Sunday in our new building, first Sunday in advent 2013.

Plastering on the inside in May 2014.

Outside view after teams were done at the end of June 2014.

Our first Sunday inside with the main floor finished.
